

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

GRADED AND ANNOTATED CATALOG OF BOOKS

**IN THE
PUBLIC LIBRARY OF THE DISTRICT OF
COLUMBIA
FOR USE IN THE SCHOOLS
OF THE CITY**

**THE PUBLIC LIBRARY
WASHINGTON, D. C.
1919**

INTRODUCTION

During the school year the Public Library of the District of Columbia furnishes many books thru the schools to the children of the city. This work is made necessary by the lack of library branches thruout the city and it is made possible thru the courtesy of the school officials and the splendid help of the teachers who generously add this distribution to their other work. The teacher's recommendation of books meets with ready response from the children. Therefore this sending small libraries to the class room greatly aids the library in its effort to reach the right child with the right book at the right time. It is of vital importance that the child shall be so reached since we are thus doing not only constructive work by adding to his store of knowledge and improving his taste but we are also doing preventive work in stemming the tide of mediocre and sometimes vicious books which are available to children. Nothing is more sure than that the average child will read something. What he reads is very often left entirely to the schools and the library. Together these two can accomplish a great piece of worth while work which neither can do as satisfactorily alone. Any teacher from the third to the eighth grade may select or request the library to select one book for each child in her class. These books will be sent to her and called for at the end of two months. For the convenience of the teachers and to advise them of the material to be had for supplementary work and for pleasurable reading this graded and annotated catalog of books has been prepared. It has been arranged by subject that the material on the work being covered may be readily found. Many of the books listed in a certain grade will be found useful in a lower or higher grade; the grading, which in some cases is made to conform to the course of study, is only suggestive. Grateful acknowledgment is made to the Carnegie Library of Pittsburgh and to the A. L. A. Publishing Board for permission to use many of their annotations.

Have you ever rightly considered what the mere ability to read means? That it is the key which admits us to the whole world of thought and fancy and imagination, to the company of saint and sage, of the wisest and the wittiest at their wisest and wittiest moment? That it enables us to see with the keenest eyes, hear with the finest ears, and listen to the sweetest voices of all time? More than that, it annihilates time and space for us.

James Russell Lowell.
